

VARSHITH G S

Software Engineer | Full Stack Developer | AI/ML & Data Science Enthusiast

Chennai, Tamil Nadu, India | varshithgs2007@gmail.com | 8056547565 linkedin.com/in/varshithgs | github.com/thiranprivateltd-cloud | varshith-io.vercel.app | YouTube: Code with GSV

PROFESSIONAL SUMMARY

Second-year B.Tech Computer Science Engineering (Artificial Intelligence & Data Science) student with hands-on experience building full-stack web applications and AI-driven tools. Skilled in frontend and backend development, REST API design, and collaborative software engineering practices. Focused on writing clean, scalable code and applying emerging technologies to solve real-world problems.

EDUCATION

Bachelor of Technology - Computer Science Engineering (AI & Data Science)

Expected 2028

Vel Tech University

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, Java (Basics), C

Web Technologies: HTML5, CSS3, Bootstrap

Database: MySQL

Tools & Platforms: Git, GitHub, VS Code, Vercel

Libraries: NumPy, Pandas, Three.js

Core Concepts: Object-Oriented Programming, Data Structures, Responsive Web Design, REST API Development, Problem Solving

PROJECTS

NextStep - AI Career Guidance Platform

Tech Stack: React.js, Node.js, Python, MongoDB/MySQL, AI APIs

- Built an AI-powered platform generating personalized career recommendations, learning roadmaps, and a career assessment system with scholarship/internship discovery.
- Designed a responsive, modern dashboard interface with integrated authentication.
- Developed and integrated REST APIs to connect frontend, backend, and AI recommendation logic.

IntraSphere - Employee Management Portal

Tech Stack: React.js, Node.js, MongoDB, JWT

- Built an employee management portal with secure JWT-based authentication and role-based access control.
- Developed employee dashboards, attendance management, task tracking, and announcement modules.

3D Interactive Portfolio

Tech Stack: Three.js, JavaScript, WebGL, HTML, CSS

- Designed an immersive portfolio website with advanced 3D animations and interactive scenes.
- Optimized rendering performance for smooth transitions across devices.

FREELANCE EXPERIENCE

Freelance Web Developer

2025 - Present

- Develop responsive, high-performance business websites for clients using HTML, CSS, JavaScript, and React.
- Gather client requirements and translate them into functional, production-ready websites.
- Build responsive interfaces optimized for both desktop and mobile devices.
- Improve website performance and accessibility, and deliver projects within deadlines while maintaining high-quality code.

Client Project: LaunchLab - Business Website

- Developed a multilingual (English, Tamil, Hindi) business website with a modern, responsive UI and performance-optimized animations to showcase web development services.

CERTIFICATIONS

- MongoDB Basics for Students
- Network Function Virtualization Fundamentals

ACHIEVEMENTS

- Won First Place at a Project Expo for a full-stack technical project.
- Participated in multiple hackathons and technical competitions.
- Created educational programming content through the "Code with GSV" YouTube channel.

SOFT SKILLS & LANGUAGES

Soft Skills: Communication, Team Collaboration, Strategic Thinking, Public Speaking, Problem Solving, Cross-functional Collaboration, Quick & Continuous Learner

Languages: Tamil, English
